

Brian Dawson
Assignment #1

Readme

VM Name:

csc415-server06

VM Pathname: /home/student1/assignment1

Running the program:

To run the program, make sure the input and output files are within the same folder as the main program and run “Brian_Dawson_Assignment1.rb”. Also make sure to have the smarter_csv gem installed.

Limitations/Bugs:

One limitation in the program is that the program has some issues in outputting sections correctly and correctly putting students into sections. Another limitation is the program doesn't have checks for all of the possible edge cases.
